

Resources needed:

- Starter/Plenary quiz (Year level specific)
- PowerPoint of Burns First Aid steps
- Camera to record class activity

OPTIONAL:

- Squares of cling wrap/lint free cloth

Starter:

Ask students to answer quiz questions (either print out answer sheets attached, or display on board and have students write down letter of answer on paper, or show of hands for each answer and record on board)

NOTE: Please use year level specific quiz

Main:

Show students First Aid PowerPoint. Notes are on PowerPoint for further information to assist delivering the correct information. Discuss how to run the burn site under water if burn is large (eg on back) – use shower/hose for eg.

Divide students into groups, students to roll play getting a burn and other students in group to ‘treat’ burn using the correct steps of Burns First Aid using cling wrap/cloth if available.

Whilst students are doing this, circulate to check getting Burns First Aid steps correct, and take photos to document your class’s involvement.

Bring class back together and discuss any questions that arose.

Plenary:

Repeat the quiz as starter and see if answers differ.
